DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 3, 7, 11, and 13-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Ohnishi (3,932,877). Ohnishi teaches a grid made of nickel (column 5, lines 24-31). The grid has the Young's modulus of nickel.
2. Claims 8 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Reale (4,920,266). Reale teaches a stabilizer plate plated with 36% by weight of nickel (column 11, lines 37-42).

Allowable Subject Matter

3. Claims 2, 4-6, 9-10, 12, 15-17, and 19-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 8-3-2005 have been fully considered but they are not persuasive. Applicant argues that the applied art does not teach the components are 30% or more nickel. Applicant point to column 5 of Ohnishi. However, this portion of the reference does not discuss the amount of nickel in the components. The reference teaches that the components are made of 100% nickel. Thus, the claims remain rejected as discussed above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
